

What Is Claimed Is:

1. A steering wheel with at least one device for the fastening of build-on parts, the steering wheel having a steering wheel skeleton surrounded by foam, wherein the device provided for the fastening of build-on parts is, on the steering wheel skeleton, a holding part which is fixed by the steering wheel foam surround and which projects out of the steering wheel foam surround for the fastening of at least one build-on part.
2. The steering wheel as claimed in claim 1, wherein the holding part bears against the steering wheel skeleton.
3. The steering wheel as claimed in claim 1, wherein the holding part is adhesively bonded to the steering wheel skeleton.
4. The steering wheel as claimed in claim 1, wherein an interspace, which is filled by the steering wheel foam surround, is present between the steering wheel skeleton and the holding part.
5. The steering wheel as claimed in claim 1, wherein the holding part surrounds the steering wheel skeleton at least partially at one point.
6. The steering wheel as claimed in claim 5, wherein the holding part has a U-shaped design in the region of the steering wheel skeleton.
7. The steering wheel as claimed in claim 5, wherein the holding part has an L-shaped design in the region of the steering wheel skeleton.
8. The steering wheel as claimed in claim 1, wherein the holding part has a flat design in the region of the steering wheel skeleton.
9. The steering wheel as claimed in claim 1, wherein the holding part is provided on a spoke of the steering wheel.

10. The steering wheel as claimed in claim 1, wherein the holding part provided is a sheet metal part.
11. The steering wheel as claimed in claim 1, wherein the holding part provided is a plastic part.
12. The steering wheel as claimed in claim 1, wherein the build-on parts can be fastened to an adaptor, as the first build-on part, which is connected to the holding part.
13. The steering wheel as claimed in claim 12, wherein the adaptor is an adaptor plate.
14. The steering wheel as claimed in claim 1, wherein the holding part is connected to the build-on parts by means of screws or rivets.
15. The steering wheel as claimed in claim 1, wherein that portion of the holding part which lies within the steering wheel foam surround has a smaller longitudinal extent than the portion which lies outside the steering wheel foam surround.
